

W.M. BULL GARLINGTON

Masonic Guest Speaker

AUTHENTIC, UNSCRIPTED, HIGH-IMPACT
MASONIC PRESENTATIONS.

“MESSOTERICA”

Developed from the popular paper of the same name, Messoterica goes past the written word. While it starts from the same tongue-in-cheek position of pure snark, the talk swerves at the halfway point, following the implied direction of the core argument to an astonishing deduction that brazenly challenges your lodge.

THE CORE IDEA: Excessive focus on esoterica leads one further and further away from their real work as a Mason.

WHO IT'S FOR: Worshipful Masters whose lodges are obsessing over the kaballa, alchemy, astrology, conspiracy theories, numerology, and golf stats at the expense of their Masonic duties to God, their neighbor, and especially to themselves and instead of doing the actual work of a Freemason.

KEY TAKEAWAY: The actual work of a freemason, why the result of this work is a moment of pure sublimity, and why it won't happen if you have your head up your assoterica.

THE TONE: Bombastic, loud, unexpected and hilarious ending with a surprising, deeply inspiring, heartfelt call to action.

“Bull is my go-to guy when I need a presentation, delivering engaging and humorous talks that bring crowds back repeatedly.”

— James Tome, Chicago Scottish Rite

“An incredibly enlightening, honest, raw, and enthusiastic lecture. Challenged me to think in a way that caused me to reflect deeply.”

— Michael Padro, White Plains Lodge 473
